BOTOX / DYSPORT / XEOMIN CONSENT FORM

肉毒杆菌素注射知情同意书

I request that the above provider perform Botox/Dysport/Xeomin injection into muscles covering my forehead, face, scalp, neck, upper back, jaw, and/or other muscles in the body.

我请求上述提供商执行注射到覆盖我的前额、面部、头皮、颈部、上背部、下颌和/或身体其他肌肉的肌肉中。

The injections temporarily relax selected muscles to soften lines or contour. Results vary; repeat treatments may be needed.

注射暂时放松指定肌肉，以柔化纹路或调整轮廓。效果因人而异，可能需再次治疗。

My provider identified the actual brand, muscles, units and any off-label use. Different brands' units cannot be interchanged.

医护已明确实际品牌、肌群、单位及超说明书使用，不同品牌单位不可互换。

RISKS / POSSIBLE COMPLICATIONS 风险及可能并发症

1. Local reactions: pain, tenderness, redness, swelling, bruising, bleeding and infection at or near an injection site.

局部反应：注射部位或邻近可能疼痛、压痛、发红、肿胀、瘀青、出血或感染。

2. Headache, nausea, fever, malaise and muscle aches or flu-like symptoms have been reported.

已有头痛、恶心、发热、不适、肌肉酸痛或流感样症状的报告。

3. Unwanted weakness of nearby muscles may cause eyelid/brow droop, an uneven smile, altered expression, asymmetry, neck weakness, blurred or double vision, dry eyes or difficulty closing the eyes.

邻近肌肉非预期无力可造成眼睑或眉下垂、笑容不均、表情改变、不对称、颈部无力、视物模糊或复视、干眼及闭眼困难。

4. Localized numbness, altered sensation, muscle twitching or involuntary contractions have been reported after approval. The frequency and causal relationship of these voluntary reports are not always established.

上市后已有局部麻木、感觉异常、肌肉抽动或不自主收缩报告。这些自发报告的发生率及因果关系并非总能确认。

5. Rare toxin spread can cause generalized weakness, speech, swallowing or breathing problems hours to weeks after injection; severe cases can be life-threatening. Serious allergy is also possible.

罕见毒素扩散可在注射后数小时至数周引起全身无力、说话、吞咽或呼吸困难，严重时危及生命；亦可能发生严重过敏。

6. Human albumin: BOTOX/BOTOX Cosmetic, DYSPORT and XEOMIN contain albumin derived from human blood. Donor screening and manufacturing reduce viral/vCJD transmission risk to a very low level; CJD transmission remains a theoretical, very low risk. Their labeling reports no identified transmission through licensed albumin or albumin in other licensed products.

人源白蛋白：BOTOX 及 BOTOX Cosmetic、DYSPORT 和 XEOMIN 含人血来源白蛋白。供者筛查及生产工艺使病毒或变异型克雅氏病（vCJD）传播风险极低；克雅氏病（CJD）传播为理论性且极低的风险。说明书记载，尚未发现经获许可白蛋白或其他获许可产品中白蛋白传播的病例。
