BOTOX + FILLER CONTOURING — CONSENT FORM

面部轮廓塑形知情同意书

I request that Nouvelle Anti-Aging provide Botox + Filler Contouring as explained to me.

本人申请接受 Nouvelle Anti-Aging 向本人解释的面部轮廓塑形项目。

Botulinum toxin and hyaluronic-acid filler are combined to address muscle activity and volume separately. Either component may be deferred or staged.

联合肉毒毒素与透明质酸填充剂，分别处理肌肉活动与容量问题。任一部分均可延期或分期进行。

Record each product, site and dose separately. This combination form covers toxin plus HA only; other materials need their own disclosures.

分别记录每种产品、部位及剂量。本联合表仅涵盖肉毒与透明质酸；其他材料需另行告知。

RISKS / POSSIBLE COMPLICATIONS 风险及可能并发症

1. Toxin risks include injection pain/infection/bruising, flu-like symptoms, altered sensation or muscle twitching, unwanted weakness, eyelid/brow droop, double vision, asymmetry and an altered smile. Rare distant spread can impair breathing, swallowing or speech and can be life-threatening.

肉毒风险包括注射疼痛、感染、瘀青、流感样症状、感觉异常或肌肉抽动、非预期无力、眼睑或眉下垂、复视、不对称及笑容改变。罕见远处扩散可影响呼吸、吞咽或说话，甚至危及生命。

2. Human albumin: BOTOX/BOTOX Cosmetic, DYSPORT and XEOMIN contain albumin derived from human blood. Donor screening and manufacturing reduce viral/vCJD transmission risk to a very low level; CJD transmission remains a theoretical, very low risk. Their labeling reports no identified transmission through licensed albumin or albumin in other licensed products.

人源白蛋白：BOTOX 及 BOTOX Cosmetic、DYSPORT 和 XEOMIN 含人血来源白蛋白。供者筛查及生产工艺使病毒或变异型克雅氏病（vCJD）传播风险极低；克雅氏病（CJD）传播为理论性且极低的风险。说明书记载，尚未发现经获许可白蛋白或其他获许可产品中白蛋白传播的病例。

3. HA filler risks include swelling, bruising, pain, itching, infection, herpes reactivation, lumps, discoloration, migration, delayed nodules, scarring and over/undercorrection.

透明质酸填充风险包括肿胀、瘀青、疼痛、瘙痒、感染、疱疹复发、结块、色泽改变、移位、迟发结节、瘢痕及过度或不足矫正。

4. Intravascular injection or vascular compression can cause tissue death, permanent visual loss/blindness or stroke; urgent treatment may not reverse injury.

误入或压迫血管可能造成组织坏死、永久视力丧失或失明、卒中；紧急处理也未必能够逆转损伤。

5. Allergy to filler, lidocaine or other ingredients, including severe systemic allergy. Correction may require hyaluronidase, medicines or surgery, with separate risks and no guaranteed complete reversal.

可能对填充剂、利多卡因或其他成分过敏，包括严重全身过敏。纠正可能需透明质酸酶、药物或手术，各有风险，不能保证完全恢复。

Local/topical anesthetic, if used, may cause allergy or systemic toxicity; agent-specific risks have been explained.

如使用局部或表面麻醉，可能出现过敏或全身毒性；具体药物风险已说明。

HEALTH DISCLOSURE 健康情况告知

Disclose all prior injections, allergies, facial operations, neuromuscular disease, swallowing problems, infection and medicines. Both toxin and filler eligibility must be assessed.

告知所有既往注射、过敏、面部手术、神经肌肉疾病、吞咽问题、感染及用药。需分别评估肉毒和填充适用性。

I have disclosed all medicines, supplements, allergies and prior treatments. I will report changes. I will not stop medication without medical advice.

本人已告知全部用药、补充剂、过敏及既往治疗，并会报告变化。未经医生指导，不自行停药。

ALTERNATIVES / RESULTS 替代方案及效果

No treatment; toxin alone; filler alone; staged treatment; surgical consultation.

不治疗；单用肉毒；单用填充剂；分期治疗；手术咨询。

No result or duration is guaranteed; further sessions/correction may be needed. With no elective treatment, the original concern may remain. Fees and possible additional costs have been explained separately.

不保证效果或维持时间，可能需后续疗程或修复。不接受选择性治疗时，原有困扰可能持续。费用及可能的额外费用已另行说明。

AFTERCARE / WHEN TO SEEK HELP 护理及就医提示

Follow separate aftercare for both components; avoid unapproved pressure or massage. Review after swelling and toxin response have stabilized before deciding on further correction.

同时遵守两部分护理要求，避免未经许可的按压和按摩。待肿胀与肉毒反应稳定后复诊，再决定是否进一步调整。

Vision change, severe unusual pain, blanching or mottled skin, trouble breathing/swallowing or stroke symptoms require immediate emergency assessment.

视力改变、异常剧痛、皮肤苍白或斑驳、呼吸或吞咽困难、卒中症状应立即紧急评估。

Clinic: (425) 598-1111. For severe/life-threatening symptoms call 911; do not wait for a callback.
