OXYAIR HYPERBARIC OXYGEN REVITALISING — CONSENT FORM

OXYAIR 高压氧舱焕活全身抗衰知情同意书

I request that Nouvelle Anti-Aging provide OXYAIR Hyperbaric Oxygen Revitalising as explained to me.

本人申请接受 Nouvelle Anti-Aging 向本人解释的 OXYAIR 高压氧舱焕活全身抗衰项目。

Use of a specified oxygen/pressure chamber is proposed for the documented goal. A wellness oxygen session is not automatically medical HBOT; anti-aging benefit is not established by the chamber name.

拟按记录目标使用指定氧气或压力舱。养护氧舱不当然等于医学高压氧，舱体名称也不能证明抗衰效果。

Record model, maximum pressure in ATA, delivered oxygen concentration, delivery method, indication and emergency plan. Do not label low-pressure wellness use as equivalent to prescribed medical HBOT.

记录机型、ATA 压力、实际氧浓度、供氧方式、适应证及应急方案，不将低压养护等同于处方医学高压氧。

RISKS / POSSIBLE COMPLICATIONS 风险及可能并发症

1. Pressure may cause ear/sinus pain, eardrum injury or lung barotrauma. Oxygen exposure can cause toxicity including seizures, and temporary visual changes. Claustrophobia and glucose changes may occur. Oxygen-enriched environments have serious fire risk; benefits for general rejuvenation are uncertain.

压力可导致耳或鼻窦痛、鼓膜损伤或肺气压伤。氧暴露可能产生包括癫痫的氧中毒及暂时视力变化，也可能有幽闭恐惧及血糖变化。富氧环境有严重火灾风险，一般年轻化获益不确定。

HEALTH DISCLOSURE 健康情况告知

Untreated pneumothorax prevents pressure treatment. Disclose lung disease, ear/sinus problems, respiratory infection, seizures, diabetes, claustrophobia, implanted devices and all medicines including prior chemotherapy. A trained clinician must assess suitability.

未处理气胸者不可接受加压治疗。告知肺病、耳或鼻窦问题、呼吸道感染、癫痫、糖尿病、幽闭恐惧、植入物及所有药物，包括既往化疗，需由受训医护评估。

I have disclosed all medicines, supplements, allergies and prior treatments. I will report changes. I will not stop medication without medical advice.

本人已告知全部用药、补充剂、过敏及既往治疗，并会报告变化。未经医生指导，不自行停药。

ALTERNATIVES / RESULTS 替代方案及效果

No chamber session; conventional care for the underlying condition; specialist assessment if medical HBOT is indicated.

不入舱；对基础疾病采用常规治疗；有医学高压氧指征时转专科评估。

No result or duration is guaranteed; further sessions/correction may be needed. With no elective treatment, the original concern may remain. Fees and possible additional costs have been explained separately.

不保证效果或维持时间，可能需后续疗程或修复。不接受选择性治疗时，原有困扰可能持续。费用及可能的额外费用已另行说明。

AFTERCARE / WHEN TO SEEK HELP 护理及就医提示

Follow chamber staff instructions; remove prohibited electronics, batteries, ignition sources, oils and incompatible clothing/products. Learn equalization and stop signals before entry; never enter unmonitored or self-adjust pressure.

遵守操作人员指示，移除禁止的电子设备、电池、火源、油性物及不兼容衣物产品。入舱前学会平压及停止信号，不在无人监测时入舱，不自行调压。

Immediately signal ear pain, chest discomfort, breathlessness, dizziness or visual symptoms during treatment. Chest pain or breathing difficulty after treatment requires emergency care.

治疗中出现耳痛、胸部不适、气短、眩晕或视力症状应立即发信号。治疗后胸痛或呼吸困难应急诊。

Clinic: (425) 598-1111. For severe/life-threatening symptoms call 911; do not wait for a callback.

诊所：(425) 598-1111。严重或危及生命的症状请拨 911，不等待回电。

ACKNOWLEDGMENT / CONSENT 确认与同意

I have read all pages and had my questions about the treatment, risks, benefits and alternatives answered. I consent to the treatment described in this form and repeat treatments within the agreed plan, with my willingness confirmed before each session.

本人已阅读全部页面，关于治疗、风险、获益及替代方案的问题已获解答。本人同意接受 OXYAIR 高压氧舱焕活全身抗衰及约定方案内的后续重复治疗，每次治疗前确认本人愿意继续。
